EXAMINER'S AMENDMENT

1. Applicants cancelled claims 22-28 without prejudice or disclaimer as indicated in remarks dated 5/15/05. Claims 1, 4-10 and 12 are in condition for allowance except non-elected claims 29, 30, 32, and 33. The applicant's election to prosecute the invention of Group I, claims 1, 4-10, 12 and 22-28 and withdraws claims 29, 30, 32 and 33 from consideration was filed on 1/31/06 without traverse. Accordingly, claims 29, 30, 32, and 33 have been cancelled.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claims 29, 30, 32, and 33 have been cancelled.

Allowable Subject Matter

3. Claims 1, 4-10 and 12 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The closest prior art, Coleman (US 5,844,620 A) teaches a method and apparatus for providing and displaying an interactive television program guide; Logston (US 5,481,542 A) teaches communications between a set top terminal and connection manager computer and communications between the connection management computer to service provider, i.e.,

sending/receiving a request message and a response acknowledge message. Particularly, in the Coleman's system, whenever a user desires to view a portion of program guide database that is not stored in a decoder memory, the desired portion is acquired from a demand stream. Both, either singularly or in combination, fail to anticipate or render the following limitations obvious: "sending, by the terminal to the session manager, a stream acquired message, when it is determined at the terminal that the particular region is currently received at the terminal; sending, by the session manager, to the transport stream generator, a stream acquired message, when the particular region is currently received at the terminal; generating, by the transport stream generator, a stream for the particular region, upon receiving the stream requested message from the session manager" as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
